Firestick: see next page

# **INSTALL INTRUCTIONS FOR FIRESTICK / SMART TV**

**Firestick**: To load IPTV SMARTERS OR TiVi Mate on a Firestick, it must be "side loaded" as it is not available through their app store. It only takes a minute. Follow these steps.

1) Search for the app "Downloader" and install it. (by AFTV NEWS)

2) Go to your Home Screen and select Settings.

3) Find "My Fire Tv" and select it.

4) Go to "Developer options" and "unknown sources" "downloader" – Allow or Turn on

\*\*if you cannot see this option, go back and click **"about"** then hover over **"My FireStick TV"** <u>and press the select button 7 times</u>. You will see it counting down at the bottom of the screen along with the message **"You are now a Developer"** when you have hit the button enough times. You should now be able to see developer options to complete step 4 above\*\* some models are different and you may need to click the about button 7 times.

5) **Open** the **"Downloader" app** that you installed in <u>step 1.</u>

6) From the Home Screen of Downloader, you should be able to **enter a URL to download a file. For IPTV SMARTERS** - **http://peninsulaiptv.com/firestick/** and hit **GO**.

For TiVi Mate - http://peninsulaiptv.com/tivi and hit GO. (recommended)
7) The IPTV SMARTERS/ TiVi Mate app should now download automatically. Follow the prompts to complete the install, and you should be prompted to open the app when the install is completed successfully. Choose Done, and continue to the next step.

#### Open Downloader, and delete the file you downloaded when the install has completed successfully.

You're almost there! Now you're ready to login to SMARTERS / TiVi Mate

Follow the directions on the next page to get logged in.

You can use the same directions below when logging in to TiVi Mate, as they both require the same information.

# Logging In to SMARTERS:

Open the SMARTERS app on your device:

From the Main Menu, choose the **Xtreme Codes Option** *The screen layout will differ depending on the type of device you are using* 

For this step, you will need to retrieve the **Login Details that were e-mailed** by the system when you subscribed to our service.
